

The Copper Mark Summary Report

Participant Information

Name of the Site	Chino
Unique identifier provided by the Copper Mark	P0019
Address	99 Santa Rita Mine Road Vanadium, NM 88023
Country of Operation	United States of America
Products produced on site (e.g., concentrate, anodes, cathodes, sulphuric acid, slag, etc.)	Copper cathode and copper concentrate
Metals produced on site (e.g., copper, gold, nickel, silver, molybdenum)	Copper
Metals included in scope of Criterion 31 (this must be all, or a sub-set of the metals produced on site)	Copper
Types of operations included in scope	
Mining	<input checked="" type="checkbox"/>
Concentrate blending	<input type="checkbox"/>
Solvent extraction and electrowinning	<input checked="" type="checkbox"/>
Smelting	<input type="checkbox"/>
Refining	<input type="checkbox"/>
Other (<i>please explain</i>)	
Infrastructure owned or controlled by the site and included in scope	
Roads	<input type="checkbox"/>
Rails	<input type="checkbox"/>
Ports	<input type="checkbox"/>
Other (<i>please explain</i>)	

Independent Review

<p>During this step, the Independent Reviewer examined the Copper Producer’s self-assessment, supporting documentation, independent third-party assurance reports, and publicly available information.</p> <p>The activities included review for completeness, verifying equivalence, and conducting desk-based due diligence.</p> <p>As a result, the Independent Reviewer recommended the scope of the site assessment to the Copper Mark.</p> <p>The Independent Review took place on these dates:</p>	<p>18 January 2022 – 1 March 2022</p>	
<p>The Independent Reviewer confirmed completeness, indicating available evidence for the assessor to review for all applicable criteria:</p>	<p>All criteria</p>	
<p>The Independent Reviewer recommended the following criteria be included in the scope of the independent site assessment:</p>	<p>None. All were met through equivalency and top-off requirements with an assessment against the ICMM Performance Expectations</p>	
<p>The following equivalent systems were applied:</p> <p><i>Equivalent systems are determined by the Copper Mark to have standards and assurance requirements that are materially comparable in scope and intent to those of the Copper Mark, in accordance with the <u>Copper Mark Recognition Process</u>.</i></p>		
<p>Equivalent System <i>(Name, date of assurance / certification)</i></p>	<p>Review Process</p>	<p>Criteria Covered by Equivalency</p>
<p>ICMM PE Assessment May-June and December 2021</p>	<p>The Independent Reviewer confirmed the assurance / certification was:</p> <ul style="list-style-type: none"> Valid at the time of the review No more than 24 months old and / or plans for reassessment are underway In effect for an additional 12 months and / or plans for reassessment are underway 	<p>All applicable criteria This is inclusive of a "top-up assessment" to review the criteria that are identified as gaps between the ICMM PE and the RRA for criteria 2. Business Integrity, 10. Working Hours, and 11. Remuneration.</p>

	<ul style="list-style-type: none"> Covering the same scope as the Copper Mark Responsible Production Criteria, including operations, locations, and materials Accompanied by improvement plans where applicable 	
The Independent Reviewer recommended the following criteria be considered focus areas for the independent site assessment:		<ul style="list-style-type: none"> 12. Occupational Health and Safety 17. Freshwater Management and Conservation 19. Tailings Management 20. Pollution
The Independent Reviewer recommended the following criteria be considered not applicable to the Site:		None

Independent Site Assessment Information

Name of the Lead Assessor	David Shirley
Name of the Assessment Firm (if applicable)	Corporate Integrity, Ltd.
Date(s) of Assessment Activities (dd/mm/yyyy – dd/mm/yyyy)	May-June 2021 (Document review) 22-24 June 2021 (Site review) December 2021 (Interviews)
Assessment Period	1 January 2021 – 31 December 2021
Summary of the Assessment Methodology	<p>The work was carried out in accordance with Corporate Integrity Ltd.'s assurance procedures. Assurance activities were risk based with focus on material issues and included the review of:</p> <ol style="list-style-type: none"> processes in place to identify and prioritise SD risks and opportunities during the reporting period; the policies, systems and approaches that Freeport-McMoRan is using to manage these risks and opportunities; the collection and assimilation of GRI reported performance information; and For the PE and CM validation, specific evidence to support Chino's self-assessment claims. In some cases, the assessors were able to rely on other third-party audits such as ISO14001,

	<p>OSHAS18001 and financial audits, to avoid duplication of assurance effort.</p> <p>Corporate Integrity applied the following principles to provide COVID-19 constrained assurance remotely:</p> <p>1) Where the following conditions are all met Corporate Integrity considers that we have detailed knowledge of the site and operations sufficient to provide remote assurance:</p> <p>a) A physical site visit by at least one currently accredited Copper Mark assessor has been made in previous three years; and</p> <p>b) The site has been operating to ICMM Sustainable Development principles for the last three years or more.</p> <p>2) During the course of the remote assurance review, they may identify specific areas which will need to be covered at site during the next physical site visit, which should be conducted within an 18-month period.</p> <p>3) In the event that a follow up visit is not possible because of ongoing COVID-19 travel restrictions or because a site visit could not otherwise be achieved, the assurance status will need to be reviewed and a reassessment may be required.</p> <p>4) On a site-by-site basis the assessor will require that all equivalent third-party assurance remains valid during this period (e.g. ISO14001, OSHAS18001).</p>
<p>Summary of the Assessment Activities</p>	<p>The work was carried out in accordance with Corporate Integrity Ltd.'s assurance procedures, which involve:</p> <p>1. Desktop review and scoping for site review including:</p> <ul style="list-style-type: none"> • Review of related corporate policies and their alignment to the scope of the assurance. • Review of site Risk Register. • Review of the site self-assessment and supporting evidence submitted. <p>2. Site Review including:</p> <ul style="list-style-type: none"> • Review of scope related risks at the site, including processes for evaluation and prioritisation. This involves interviews with senior management and all relevant departments. • Review of the systems and approaches that are used to manage scope related risks and issues. This involves interviews with relevant departments and personnel, review of additional documented evidence and physical observations (at operation and in local communities). • Review of procedures for the collection and assimilation of relevant performance information

	<ul style="list-style-type: none"> Internal and external stakeholder interviews <p>Close out meeting with management team, which includes presentation of findings and discussion on site's plans to close gaps to achieve 'meets' for all CM requirements and other improvement opportunities. Assurance Outcomes including:</p> <ul style="list-style-type: none"> Corporate Integrity provides an assurance statement based on the self-assessment. Corporate Integrity provides a site management report which includes good practices, risks, and improvement opportunities

Summary of Findings

Criterion	Rating <i>Fully meets, partially meets, does not meet, not applicable</i>	Comments <i>Includes link to publicly available documents or supporting evidence where possible and at a minimum for those criteria with an *</i>
1. Legal Compliance	Fully meets	<p>The Independent Review confirmed that the site meets the requirement as validated through the ICMM PE Assessment.</p> <p>Chino has formal systems in place for ISO 14001 and OSHAS 18001. Oversight on legal compliance is provided by the corporate legal affairs team.</p>
2. Business Integrity	Fully meets	<p>The Independent Review confirmed that the site meets the requirement as validated through the ICMM PE Assessment.</p> <p>Chino is governed by group-wide policies and compliance systems. All relevant personnel are subject to Principles of Business Conduct training in 2021.</p> <p>Stakeholder interviews confirmed awareness of the Principles of Business Conduct and evidence of ongoing compliance training.</p> <p>Chino prohibits facilitation payments, and none were reported in 2020.</p>
3. Stakeholder Engagement*	Fully meets	The Independent Review confirmed that the site meets the requirement as

		<p>validated through the ICMM PE Assessment.</p> <p>Chino has and actively uses a stakeholder engagement tool that links engagements with general categories of risk. There is evidence of strong community stakeholder engagement program in place, including a Community Partnership Panel.</p> <p>Interviewed stakeholders expressed appreciation that the company was willing to engage in such a stakeholder centric process in a trusting way.</p> <p>Chino has a working grievance mechanism in place, available here.</p>
4. Business Relationships	Fully meets	<p>The Independent Review confirmed that the site meets the requirement as validated through the ICMM PE Assessment.</p> <p>Chino has a process to manage risks associated with suppliers. The corporate team is responsible for onboarding suppliers to the company requirements under the code of conduct and human rights policy. The site level teams are aware of and manage risks with associated suppliers.</p> <p>At the corporate level, the company is developing increased due diligence requirements on suppliers and contractors and their activities.</p>
5. Child Labor	Fully meets	<p>The Independent Review confirmed that the site meets the requirement as validated through the ICMM PE Assessment.</p> <p>Chino is subject to corporate policies covering a range of worker rights issues including the Human Rights Policy, Principles of Business Conduct, and Supplier Code of Conduct.</p>
6. Forced Labor	Fully meets	<p>The Independent Review confirmed that the site meets the requirement as</p>

		<p>validated through the ICMM PE Assessment.</p> <p>Chino is subject to corporate policies covering a range of worker rights issues including the Human Rights Policy, Principles of Business Conduct, and Supplier Code of Conduct.</p> <p>Company policies have a zero tolerance for human trafficking and forced labor. At the corporate level, the company will develop awareness training to assist personnel in detecting warning signs.</p>
7. Freedom of Association and Collective Bargaining	Fully meets	<p>The Independent Review confirmed that the site meets the requirement as validated through the ICMM PE Assessment.</p> <p>Chino is subject to corporate policies covering a range of worker rights issues including the Human Rights Policy, Principles of Business Conduct, and Supplier Code of Conduct.</p>
8. Discrimination	Fully meets	<p>The Independent Review confirmed that the site meets the requirement as validated through the ICMM PE Assessment.</p> <p>Chino is subject to corporate policies covering a range of worker rights issues including the Human Rights Policy, Principles of Business Conduct, and Supplier Code of Conduct.</p>
9. Gender Equality	Fully meets	<p>The Independent Review confirmed that the site meets the requirement as validated through the ICMM PE Assessment.</p> <p>Chino is subject to corporate policies covering a range of worker rights issues including the Human Rights Policy, Principles of Business Conduct, and Supplier Code of Conduct.</p>

		Interviews with workers confirmed feeling that career progression for women is well supported.
10. Working Hours	Partially meets	<p>The Independent Review confirmed that the site meets the requirement as validated through the ICMM PE Assessment.</p> <p>Operating staff work in shifts and are paid overtime for more than 40 hours per week. Salaried workers are paid for voluntary overtime for more than 40 hours per week. Five percent of the time, the hourly operating staff working hours are more than 60 hours per week, which is voluntary.</p> <p>Workers are given 1 day off in 7 as well as annual leave.</p> <p>Guidance on working hours and fatigue management is under development at the corporate level.</p>
11. Remuneration	Fully meets	<p>The Independent Review confirmed that the site meets the requirement as validated through the ICMM PE Assessment.</p> <p>At the company level, compensation and benefits is market-based and competitive and informed by annual benchmarking and analysis.</p> <p>Employees generally reported regarding rates of pay as being favorable and supporting relatively comfortable living conditions in their local communities.</p>
12. Occupational Health and Safety	Fully meets	<p>The Independent Review confirmed that the site meets the requirement as validated through the ICMM PE Assessment.</p> <p>Chino is certified for ISO 45001.</p> <p>Chino has in place an Emergency Response and Contingency Plan. The site also has a critical control audit / verification program to improve understanding of risk exposure and improve safety culture and behaviors overall.</p>

		Interviews with workers confirm strong continuous improvement efforts on workplace safety.
13. Grievance Mechanism	Fully meets	<p>The Independent Review confirmed that the site meets the requirement as validated through the ICMM PE Assessment.</p> <p>Chino is subject to corporate policies covering a range of worker rights issues including the Human Rights Policy, Principles of Business Conduct, and Supplier Code of Conduct.</p> <p>Chino has a grievance process in place covering employees and contractors.</p>
14. Environmental Risk Management	Fully meets	<p>The Independent Review confirmed that the site meets the requirement as validated through the ICMM PE Assessment.</p> <p>Chino is certified for ISO 14001.</p> <p>Environmental risks are included in the site's risk register. Action plans for risk reduction and ongoing monitoring are in place.</p>
15. Greenhouse Gas (GHG) Emissions*	Fully meets	<p>The Independent Review confirmed that the site meets the requirement as validated through the ICMM PE Assessment.</p> <p>Scope 1 and Scope 2 emissions for Chino are reported in the Annual Report on Sustainability, available here. The company has a public reduction target by 15% per ton of copper cathode in the Americas by 2030 from a 2018 baseline. Carbon reduction programs at Chino will be aligned with this commitment.</p>
16. Energy Consumption	Fully meets	<p>The Independent Review confirmed that the site meets the requirement as validated through the ICMM PE Assessment.</p> <p>Chino reports on energy consumption as part of GRI reporting, here.</p>

		Chino is also part of the Freeport wide initiatives on improving process efficiencies and considering emissions reduction on heavy mobile equipment.
17. Freshwater Management and Conservation	Fully meets	<p>The Independent Review confirmed that the site meets the requirement as validated through the ICMM PE Assessment.</p> <p>Chino has programs in place for water stewardship which include ongoing evaluation and monitoring, co-ordination with the corporate water strategy team.</p>
18. Waste Management	Fully meets	<p>The Independent Review confirmed that the site meets the requirement as validated through the ICMM PE Assessment.</p> <p>Waste is managed as part of Chino's environmental management system, based on recovery, re-use and recycling.</p> <p>This is confirmed by review of the ISO14001 certification and reports, internal audit reports, scrap recycled log, and interviews with management.</p>
19. Tailings Management	Partially meets	<p>The Independent Review confirmed that the site meets the requirement as validated through the ICMM PE Assessment.</p> <p>Chino has a comprehensive tailings management program. There is an instrumentation monitoring system that supports Chino's tailings KPIs along with other inspection, monitoring, and oversight activities. The KPIs inform the Early Warning Dashboard reporting process. Through these regular activities, no emergency conditions were triggered. Regular maintenance activities continued with regular and special engineering inspections as appropriate by site tailings engineering and operations team.</p>

		<p>Chino has undertaken a preliminary semi quantitative risk evaluation as part of a corporate-wide move to implement the Global Industry Standard on Tailings Management (GISTM).</p> <p>Chino is implementing but has not fully implemented the GISTM as required by ICMM member companies.</p>
20. Pollution	Fully meets	<p>The Independent Review confirmed that the site meets the requirement as validated through the ICMM PE Assessment.</p> <p>Pollution is managed as part of Chino’s environmental management system. The main pollution risk is particulate emissions, which is managed through a system of monitoring and controls.</p> <p>This was confirmed through interviews with management, review of the risk evaluation and risk register entries, review of controls, review of community engagement activities on environmental issues including formal grievances, review of the environmental dashboard, and other document review.</p>
21. Biodiversity and Protected Areas	Fully meets	<p>The Independent Review confirmed that the site meets the requirement as validated through the ICMM PE Assessment.</p> <p>Chino follows corporate policies and guidelines related to biodiversity. The site regularly evaluates biodiversity as part of the risk register process, which involves identifying, assessing, and mitigating potential adverse impacts to biodiversity and ecosystem services.</p> <p>No World Heritage sites or designated protected areas are impacted by Chino operations.</p>
22. Mine Closure and Reclamation	Fully meets	<p>The Independent Review confirmed that the site meets the requirement as</p>

		<p>validated through the ICMM PE Assessment.</p> <p>Chino has closure planning activities and regulatory requirements for reclamation closure plans. The corporate commitment to addressing social aspects of closure is in the Social Performance Policy and includes social aspects of closure.</p>
<p>23. Community Health and Safety</p>	<p>Fully meets</p>	<p>The Independent Review confirmed that the site meets the requirement as validated through the ICMM PE Assessment.</p> <p>Chino’s risk assessment process and Project Review includes coverage of impacts on community health and safety.</p> <p>This was confirmed by review of the stakeholder mapping and engagement program, community partnership panel meetings, and grievance process and records.</p>
<p>24. Community Development</p>	<p>Partially meets</p>	<p>The Independent Review confirmed that the site meets the requirement as validated through the ICMM PE Assessment.</p> <p>Chino utilizes the Social Performance Management System, combined with various engagement initiatives including the Community Partnership Panel to support a range of community programs. In interviews, stakeholders remarked on the site’s generosity in economic development and philanthropic interests.</p> <p>Chino has initiatives in place to encourage local and regional sourcing as part of the ongoing engagement process.</p> <p>Opportunity for improvement to implement corporate strategies to increase local and regional procurement.</p>

25. Artisanal and Small-Scale Mining	Not applicable	Previous site visits confirm there is no ASM in the area of influence.
26. Human Rights	Fully meets	<p>The Independent Review confirmed that the site meets the requirement as validated through the ICMM PE Assessment.</p> <p>Chino is subject to corporate policies, processes and compliance requirements relating to human rights, including risk evaluation and stakeholder mapping and engagement. There are established grievance processes in place for both the workforce and community. In 2020 these did not raise any Human Rights related grievances.</p> <p>Chino was part of a human rights impact assessment completed for the New Mexico facilities in which existing known risks were confirmed and new risks were added to the risk register and plans to address those risks were developed.</p>
27. Security and Human Rights	Fully meets	<p>The Independent Review confirmed that the site meets the requirement as validated through the ICMM PE Assessment.</p> <p>Chino is subject to corporate policies and compliance requirements relating to security and human rights. Security personnel at the site are all company employees.</p>
28. Indigenous Peoples' Rights	Partially meets	<p>The Independent Review confirmed that the site meets the requirement as validated through the ICMM PE Assessment.</p> <p>Chino has a management system to articulate potential issues with local indigenous tribes and to build trust between the company and the tribes. Risks are identified in the risk register and the project risk review.</p> <p>The opportunity for improvement is to fully implement the new standard operating procedures.</p>

29. Land Acquisition and Resettlement	Fully meets	<p>The Independent Review confirmed that the site meets the requirement as validated through the ICMM PE Assessment.</p> <p>Chino has had a number of property purchases near to operations that have been negotiated with property owners to mutual benefit. There is no involuntary physical or economic displacement of local communities.</p>	
30. Cultural Heritage	Fully meets	<p>The Independent Review confirmed that the site meets the requirement as validated through the ICMM PE Assessment.</p> <p>Chino addresses cultural heritage in the risk register. There is evidence that third party archaeological surveys are carried out prior to working on new ground.</p> <p>Interviews with stakeholders confirmed that Chino is working to address identified risks.</p>	
31. Due Diligence in Mineral Supply Chains	Fully meets	<p>The Independent Review confirmed that the site meets the requirement as validated through the ICMM PE Assessment.</p> <p>Chino has a management system reasonable for the type of operations.</p>	
	31.a. Management System	Fully meets	Chino has a management system and it is trained to relevant employees.
	31.b. Red Flag Identification Process	Fully meets	Chino is identified by the company risk assessment as “level 1” not operating in a CAHRA nor having external inputs.
	31.c. Risk Assessment Process	Not applicable	Chino has not identified red flags.
	31.d. Risk Management Process	Not applicable	Chino has not confirmed red flags.
	31.e. Public Reporting*	Fully meets	Chino’s Step 5 report is available here .
32. Transparency and Disclosure*	Fully meets	<p>The Independent Review confirmed that the site meets the requirement as validated through the ICMM PE Assessment.</p>	

		Chino is covered in the company's annual reporting, done in accordance with the GRI standards, and available here .
